Blog detail:

The screenshot shows the Postman interface with a GET request to `http://127.0.0.1:8000/Blog/list/admin?id=4`. The response is a JSON object with the following structure:

```
{
  "id": 4,
  "author": {
    "id": 3,
    "username": "princy"
  },
  "title": "nature",
  "content": "happy to explore",
  "image": "http://127.0.0.1:8000/static/blog_images/flower.jpeg",
  "created_at": "2023-07-26T06:29:34.386946Z",
  "updated_at": "2023-07-26T06:29:34.386946Z"
}
```

Delete Blog:

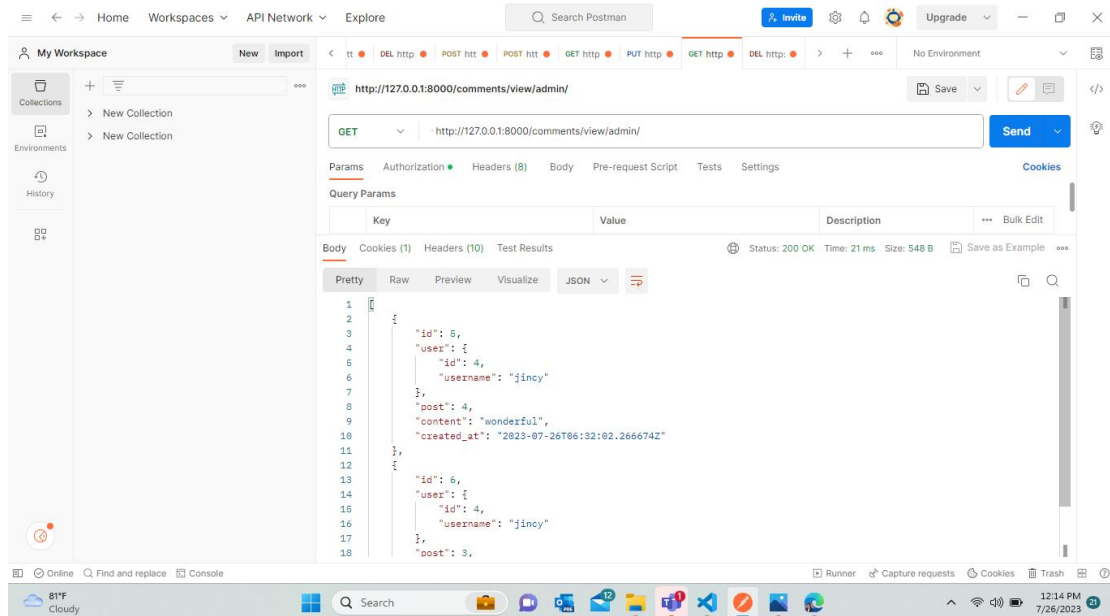

The screenshot shows the Postman interface with a DELETE request to `http://127.0.0.1:8000/Blog/delete/admin/3`. The request is authorized with a Bearer token. The response is a JSON object with the following structure:

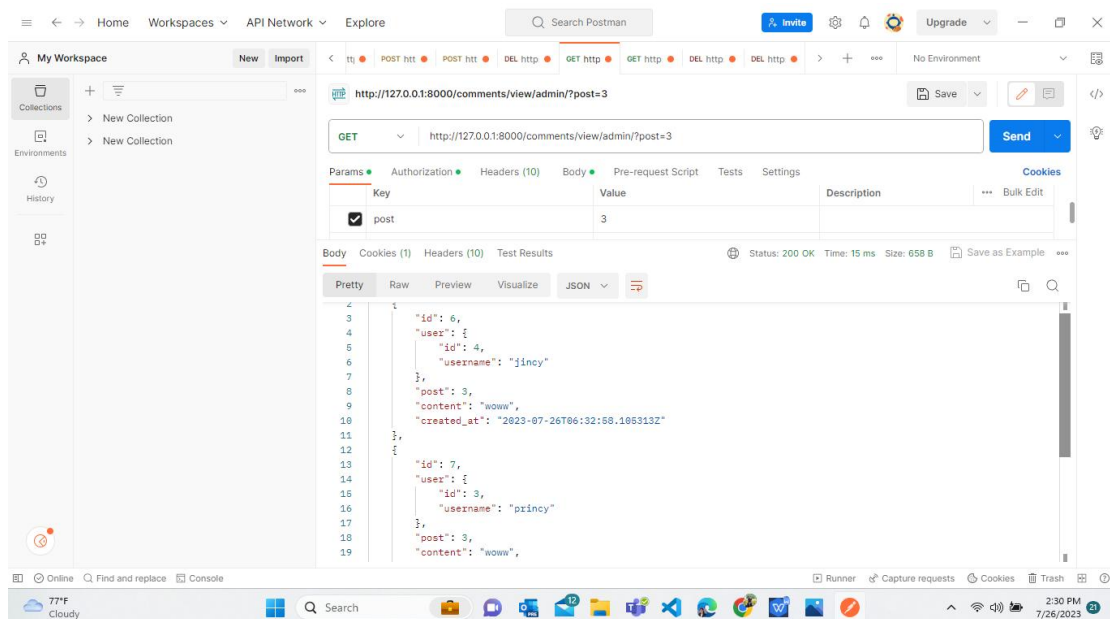

```
{
  "message": "Post is deleted"
}
```

Comment Detail

Comment Delete

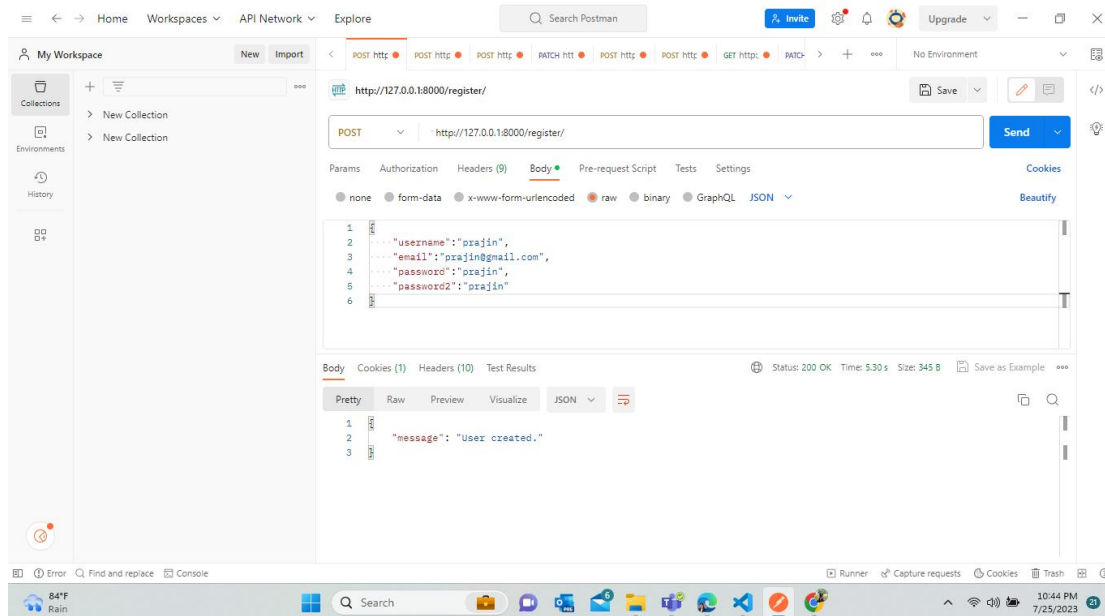

The image shows the Postman application interface. At the top, there's a navigation bar with 'Home', 'Workspaces', 'API Network', and 'Explore'. A search bar labeled 'Search Postman' is present. On the left, the 'My Workspace' sidebar shows 'Collections' and 'Environments'. The main area displays a DELETE request to 'http://127.0.0.1:8000/comments/delete/admin/5'. The request is configured with 'Authorization' set to 'Bearer Token' and a token value. The response is a 200 OK status with a body containing a JSON message: {'message': 'Comment is deleted'}. The bottom status bar shows system information like '81°F Cloudy' and the time '12:22 PM 7/26/2023'.

Postman interface showing a DELETE request to `http://127.0.0.1:8000/comments/delete/admin/5`. The request is configured with Bearer Token authentication. The response is a 200 OK status with a body containing a JSON message: `{"message": "Comment is deleted"}`.

```

Post detail-view

The screenshot shows a REST client interface with a GET request to `http://127.0.0.1:8000/blog/detail/2`. The response is a 200 OK status with a JSON body containing details for a specific blog entry. The interface includes a sidebar with 'My Workspace', 'Collections', 'Environments', and 'History'. The main panel shows the request details, including headers, body, and test results.

```
1 {
2   "id": 2,
3   "author": {
4     "id": 3,
5     "username": "princy"
6   },
7   "title": "Rainy day",
8   "content": "happy to explore",
9   "image": "http://127.0.0.1:8000/static/blog_images/rain.jpeg",
10  "created_at": "2023-07-25T13:41:56.376913Z",
11  "updated_at": "2023-07-25T13:41:56.376913Z"
12 }
```

Delete

The screenshot shows the Postman application interface. The top bar includes navigation links (Home, Workspaces, API Network, Explore), a search bar, and utility buttons (Invite, Upgrade). The left sidebar displays 'My Workspace' with options to create new collections or environments. The main panel shows a DELETE request to the URL `http://127.0.0.1:8000/delete/2`. The 'Authorization' tab is active, showing a Bearer token. The 'Body' tab shows the response in 'Pretty' format:

```
{
  "message": "Post is deleted"
}
```

. The status bar at the bottom indicates 'Status: 200 OK', 'Time: 17 ms', and 'Size: 341 B'.

3. Comments:

Create

The screenshot shows the Postman application interface. The top bar is identical to the previous image. The left sidebar shows 'My Workspace'. The main panel shows a POST request to the URL `http://127.0.0.1:8000/comments/add/`. The 'Authorization' tab is active, showing a Bearer token. The 'Body' tab shows the response in 'Pretty' format:

```
{
  "id": 7,
  "user": {
    "id": 3,
    "username": "princy"
  },
  "post": 3,
  "content": "wow",
  "created_at": "2023-07-26T08:16:02.177464Z"
}
```

. The status bar at the bottom indicates 'Status: 201 Created', 'Time: 32 ms', and 'Size: 429 B'.

Comments of a post

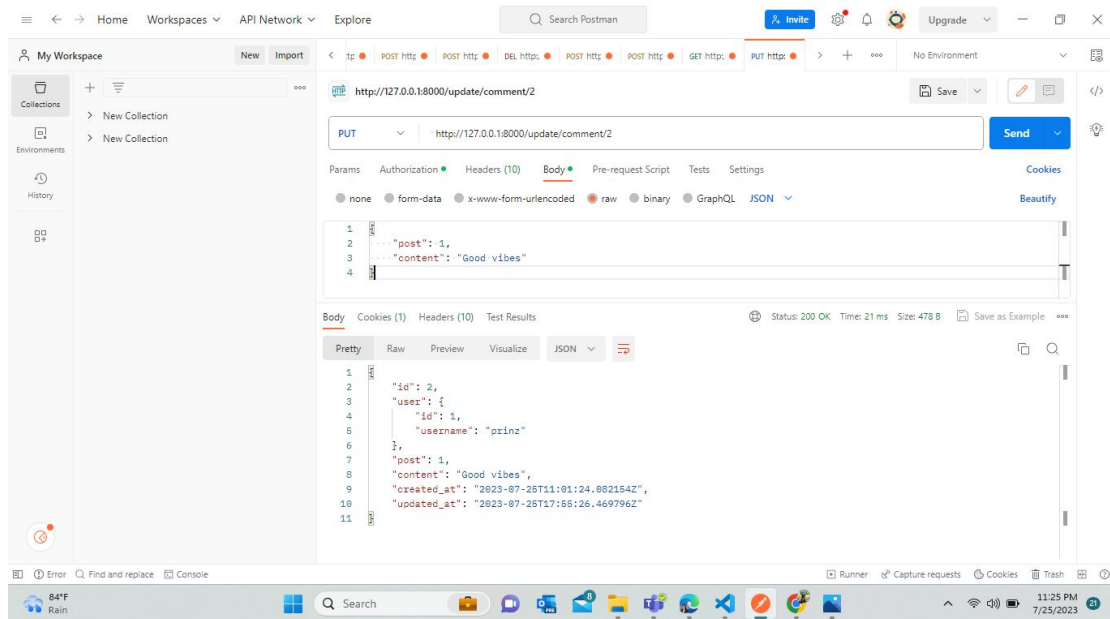

The screenshot shows the Postman interface with a GET request to `http://127.0.0.1:8000/comments/list?post=4`. The request is successful, returning a 200 OK status. The response body is a JSON array containing two comment objects. The first comment is from user 'jincy' and the second is from user 'princy'.

```
1 [{"id": 5,
2   "user": {
3     "id": 4,
4     "username": "jincy"
5   },
6   "post": {
7     "author": {
8       "id": 3,
9       "username": "princy"
10    },
11    "title": "nature",
12    "content": "happy to explore",
13    "image": "http://127.0.0.1:8000/static/blog_images/flower.jpeg",
14    "created_at": "2023-07-26T06:29:34.386946Z"
15  },
16  "content": "wonderful",
17  "created_at": "2023-07-26T06:32:02.266674Z"
18 }]
```

Update

The screenshot shows the Postman interface with a PATCH request to `http://127.0.0.1:8000/update/comment/1`. The request is successful, returning a 200 OK status. The response body is a JSON object representing the updated comment.

```
1 {
2   "id": 1,
3   "user": {
4     "id": 3,
5     "username": "princy"
6   },
7   "post": {
8     "author": {
9       "id": 3,
10      "username": "princy"
11    },
12    "title": "nature",
13    "content": "happy to explore",
